-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. Applicant's remarks dated 04/18/2006 have been acknowledged by the Examiner.

Claim Rejections - 35 USC § 112

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office Action.
3. Claims 195-124 remain rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

As was previously discussed in the 12/14/2005 Office Action, claims 95-124 recite: "said dispensing nozzles are substantially stationary". Upon review of the original specification, the Examiner found no support for the above limitation. Thus, the limitation is considered to be new matter and must be cancelled from the claims. Since no amendments have been made, the Office maintains the rejection.

4. Claims 195-124 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1743

In the prior Office Action, Examiner noted that the phrase "substantially stationary" is unclear as to what degree of stationary would qualify as "substantially stationary", or as to what degree of movement would be permissible, when interpreting "substantially stationary". Since no amendments have been made, the Office maintains the rejection.

Response to Arguments

5. Applicant's arguments dated 04/18/2006 have been fully considered but they are not persuasive.

Applicant argues that the instant application 'provides sufficient support' for the dispensing nozzles being 'substantially stationary', because 'the specification discloses liquid delivery along the fixed circular path of the rotor assembly and further discloses that the movement of the nozzles may be minimized or eliminated'. Examiner strongly disagree. The movement of any non-stationary element can be, at times 'minimized' or 'eliminated' which does not make the element stationary or 'substantially stationary'.

While admitting that the term 'substantially stationary' is not 'used or defined in the specification', Applicant states that the expression in question is still 'discernable' and implies 'minimized or eliminated' movement. Examiner maintains that 'substantially stationary' is a relative and indefinite term. An artisan of the ordinary skill in the art would not construe what degree of stationary would qualify as "substantially stationary" or what degree of movement along the circular path would be permissible.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
